Outlining A Watershed Approach for Balancing the Beneficial Uses of Water in Pilarcitos Creek

- **Learn** how and why public agencies and non-governmental organizations are working together to protect, enhance and restore local water resources.
- **Hear** from experts in the field who will share their experiences and perspectives on water recycling ~ how it is currently used, what it costs, and how clean it needs to be.
- **Participate** in the discussion as multiple stakeholders come together to identify local priorities through a “watershed approach” offering a blueprint for water resource management.

For more information or directions to the Summit, call (650) 712-7765.

Admission is free.

Pre-registration suggested to reserve your complimentary lunch.
